

PRIMARY BILL WILL NOT BE TAMPERED WITH UNTIL IT HAS BEEN WELL TRIED

This Seems To Be The Majority Of The Opinion
Of The Senators---Other Legis.
lative Gossip.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Dec. 7.—Scarcely less certain than that the senate will kill the primary election law amendment proposed by Governor La Follette is the assurance that it will be passed by the assembly. It is said that this measure, together with the proposed abolition of the "straight ticket" circle at the head of the party column on the official ballot of general elections, will be the chief issues of Speaker Lenroot in his campaign for the governorship. As Senator McGilivray and Lieutenant Governor Davidson are known to be opposed to these radical steps at the present time, there will be wide difference in the bases of their bids for the ad valorem law be declared by the courts to be unconstitutional. On the question of allowing the university to borrow from the general fund of the state there seems serious difficulty ahead. The last regular session enacted a law to change the university support from a state sum to the income on a two-sevenths of a mill tax, but in the process of legislation it was overlooked that the change would leave the university for some seven months without available money, until the time of the receipt of the general taxes. President Van Hise explained this situation before the senate and assembly committees on education in joint meeting, and asked that the recommendation of the governor be carried out so that the university might borrow from the general fund of the state to tide over the time until the taxes were available. Some criticism is heard of such a proceeding, and although there exists at present some difference of opinion among the legislators regarding the proper remedy, some adjustment will be reached that will enable the university to continue in operation and not suspend until the flight of time and the collection of taxes shall fill the university fund.

Two matters referred to in the message have been practically disposed of already—the capitol matter and the demand for the immediate payment of the railroad taxes that have been withheld pending the determination of the ad valorem litigation. The amendments to the capitol building law, clearing up the uncertainties complained of by the building commission and authorizing

Fa Follette Men Seek To Manipulate Everything According To Directions.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Dec. 7.—Six members of the assembly showed a disposition to compel Governor La Follette to make an immediate choice between the office of governor and United States senator, when such a resolution was introduced by Assemblyman Gard Miller. The resolution provided that Governor La Follette should without delay resign either the office of governor or of United States senator. Mr. Miller asked that it be considered as privileged and be adopted immediately. Assemblyman Andrew moved it be forthwith laid on the table. On the proposition Mr. Miller demanded the "Ayes" and "Noes." Six members stood up—Miller, Hanson, Everett, Ragatz, Burdett and Powell. The roll-call requires the support of fifteen members. The resolution was killed. Two new bills were received in the assembly and one in the senate. The assembly committee on judiciary introduced a bill to give county boards more power in giving aid for building and repairing bridges. Assemblyman Metzler introduced a bill to amend the primary election law so that the mayor of any city or village chairman should nominate the election officers. The senate committee on state affairs introduced a bill proposing to add some twenty sections to the grain inspection law, designed to strengthen the statute and avoid the possibility of evading it. The assembly concurred in the bill to amend the capitol building law, making it more clear and definite and authorizing the commission to elect a secretary.

Wreck On The Union Pacific To A Fast Train
Causes Much Havoc And Loss
Of Life.

[SPECIAL BY SCRIPTS-M'RAE.]
Green River, Wyo., Dec. 7.—The eastbound Overland Limited on the Union Pacific met a westbound freight head-on at Milkins, four miles from here, at midnight while traveling a mile a minute. Sixteen were killed and scores injured. Among the dead are the engineers and firemen of both trains, the conductor and head-brakeman of the freight, four postal clerks and the entire dining crew of the flyer. The track was torn up terribly. The cars of the flyer were demolished and hurled from the track. The flyer was making up lost time and the freight was running at a high rate of speed to make the Green River side-track before the passenger. A misunderstanding of orders was the cause.

RUSSIAN WOMAN PLAYED PART OF CHARLOTTE CORDAY

St. Petersburg, Dec. 7.—Lieut. Gen. Sakharoff, former minister of war, was assassinated Dec. 5. The government had deputed Gen. Sakharoff to visit the province of Saratoff for the purpose of quelling the agrarian riots there. Non-official newspapers print harrowing details of the actions of Gen. Sakharoff at Saratoff, including the whipping of the peasants whom he was sent to pacify. A woman belonging to the so-called "Revolutionary Column" of the "Revolutionary movement" called at the house of the governor at noon and asked to see Gen. Sakharoff. She fired three revolver shots at the general, killing him on the spot. The event has created a profound impression in St. Petersburg, owing to fears that the revolutionists here will follow the example thus set. The specter of a military dictatorship, which has been looming on the horizon, is slowly gaining consistency and sharpness of outline.

Mary Rogers is Condemned to Die Tomorrow, and Has Given Up All Hope of Being Saved.
[SPECIAL TO THE GAZETTE.]
Rutland, Vt., Dec. 7.—Mrs. Mary H. Rogers, who is condemned to die here tomorrow has given up every hope and is calmly awaiting her end. It is not believed that those who have been working so hard to save her will be successful, even on the newly presented point of the state's right to take the life of an unborn babe with that of the mother. Unless this point is conceded at the very last minute, Mrs. Rogers will be hanged tomorrow, for Governor Bell persistently refuses to interfere in the matter. She is calm and resigned.

M'CALL NEXT TO GIVE OUT

New York Life's President Will Resign Before
The Annual Meeting Surely.

SECURITY MUTUAL'S ODD DEAL

Agency and Investment Company Are Organized By Officers
Of The Concern Under Special
Conditions.

New York, Dec. 7.—John A. McCall, president of the New York Life Insurance company, is to retire some time between now and the annual meeting of the company, which takes place in April, according to authoritative reports heard here.

The same story declares that George W. Perkins, first vice president of the company, will retire in the immediate future without waiting until the annual meeting.

It is understood that President McCall decided that it would be to the best interests of the company for him to retire and so made known his belief to the trustees. This body, it is declared, did not like the task of naming a temporary president and decided that it would be best for Mr. McCall to postpone his retirement until just before the annual meeting.

Next to the reported retirement of the two leading figures in the New York Life, the most important development in insurance circles was the resignation of Senator Chauncey M. Depew from the board of directors of the Equitable society. Senator Depew sent his resignation from Washington direct to Chairman Paul Morton, but failed to assign any reason for the step. The resignation will be acted upon at the next meeting of the trustees, which will be held Dec. 27.

It was announced today that Senator Depew will be asked to resign his seat in the senate. A resolution demanding that he retire on account of his connection with the life insurance scandals will be introduced on the first day of the approaching session of the New York legislature.

Peculiar Transaction.
A peculiar condition of affairs was uncovered in the business of the Security Mutual Life Insurance company of Binghamton, N. Y., which received the attention of the Armstrong committee. It was shown by the president of the company, Charles M. Turner, that the stock of the company, which was organized chiefly by officials of the Security company, had entered into a contract with the life company by which it paid the salary of the president of the life company, advanced \$87,000 in cash, and agreed to furnish \$5,000,000 in insurance each year; and in return was to receive 5 per cent on all new premiums on insurance written by the company.

President Turner said that the stock of the Agency and Investment company amounted to \$125,000, and was issued to himself and his associates in the life company in payment for money they advanced. It also covered a \$10,000 compensation to himself, and what Mr. Hughes called "a \$28,000 of velvet." The stock was later increased to \$175,000, \$40,000 being issued to the company and \$10,000 to Morton D. Moss, a general agent of the company.

Stock Pays 12 Per Cent.
A new contract was then made between the two companies by which the life company agreed to pay the agency company enough money annually to pay the salary of President Turner, the expenses of the agency company, and also 12 per cent on dividends on the whole of the agency company's stock. The contract is still in force.

The Mutual Reserve Life Insurance company was given further attention, and the increase in assessments was taken up, several policies being introduced to show that the increase ate up the reserve, and finally the policy became worthless. President Eldredge insisted that the increase was due to high mortality and to too low premiums.

"I can understand why the mortality would be high among persons carrying this kind of a policy," said Chairman Armstrong. "The assessments would kill any man."

FATHER GOPEN SENTENCED TO DEATH BY THE RADICALS

The Situation In Russia Becomes Graver And
Graver--Troops Mutiny in
St. Petersburg.

[SPECIAL BY SCRIPTS-M'RAE.]
St. Petersburg, Dec. 7.—Three squadrons of cavalry have mutinied in this city. They refused to reply to the salute of their commander, who fled fearing assassination. The revolutionary committee has sentenced Father Gopen to death on the grounds he is a traitor to the cause of the people. They declare he is influenced by the government. Gopen was summoned to answer to the charges, but did not do so. He was tried by a tribunal of seven specially selected men and the unanimous sentence of death was approved by the central committee. Over a hundred were injured in a skirmish between Cossacks and strikers. A Berlin dispatch says the local branch of revolutionists have received information that a reign of terror exists at Kiev. Drunken mobs are massacring the Jews, students and middle class reformers. It is reported that fifteen hundred were killed, a thousand being Jews.

FRENCH SENATE IS READY FOR THE SEPARATION NOW

[SPECIAL BY SCRIPTS-M'RAE.]
Paris, Dec. 7.—The senate Wednesday, after a long debate, adopted the bill for the separation of church and state by a vote of 181 to 102. The vote was announced amid scenes of enthusiasm and cries of "Long live the republic!"

Former Premier Combes participated in the debate, contending that the measure assured neutrality of religion, moral liberation and social pacification.

This is the final parliamentary stage of the bill, which will be promulgated in the Official Journal, when it will become effective immediately. The council of state will devote three months to the framing of the administrative details of the new regime.

Clergy Favor and Oppose.
The action of the Vatican regarding the law has not yet been announced definitely. The French clergy, while opposing the measure, appear to be disposed to conform to the new system.

The public worship budget of 1905 will be reduced from \$3,400,000 to about \$6,800,000, consequent to the gradual diminution of the salaries paid

By the state to the clergy.

The fundamental principles of the bill insure entire liberty of conscience respecting religion, with restrictions concerning the exercise of religion which are intended to preserve public order.

In the future the state will be entirely free from connection with all religious sects.

Wipes Out Concordat.
The bill for the separation of church and state passed the chamber of deputies July 3 by the vote of 341 to 233. Its final passage marks the culmination of the strained relations which long have existed between the French government and the Vatican.

It sweeps away a system which dates from 1801, when the famous concordat was signed by Pius VII. and Napoleon. This gave religion a governmental status, the churches being government property, with a clergy paid by the state, and the entire church administration being under the direction of a member of the president's cabinet. The new system abolishes all laws and regulations under the concordat and terminates the authority of the concordat itself.

PANAMA A GOLDEN LAND OF DREAMS.

MARY HUMPHREY WRITES OF THE WORK BEING ACCOMPLISHED.

SLOW BUT SURE, THE MOTTO

Wonderful Progress Is Being Made in the Construction of the Giant Waterways

Colon, C. Z. Nov. 20.—In one of my former letters I attempted a description of the funeral car and of the funeral at Monkey Hill. Recently a local photographer has taken a picture of the car with its engine which may be interesting to you. A coffin is being lifted into the car at the moment of taking the picture. That end of the car from the door toward the engine is open space where the coffin, when there are more than one, are placed. Just inside the door is a table for the reception of one coffin. All others have to rest on the floor. Along the side of the car where the windows are, are seats like a street car. Every afternoon at four o'clock this engine and car runs to and from Monkey Hill and sel-

dom has less than two or three bodies to be interred there.

That sounds as if Colon was something of a death trap but I doubt if Janesville can show a better record. How many days in the year are there which do not have one or more funerals visiting Oak Hill or Mt. Olivet cemetery?

The population of Colon is not far from 12,000 so the mortality here is not quarter in proportion than that in any city in the states.

The same photographer has taken excellent pictures of the interiors at Ancon. Not having visited the one at Ancon I cannot write further regarding it but the one at "Monkey Hill" I have visited twice, both times to accompany the body of a white man to his last resting place.

The cemetery covers several acres of the cemetery at Monkey Hill and is sectioned off to the different classes of people.

On the brow of the hill is the part set aside for the J. C. C. employees from the states, (several of us have selected our six feet of earth.) Adjoining the J. C. C. section is one for the Panama R. R. employees (white). At the foot of the hill is the section for white people who are not J. C. C. or Panama R. R. employees, and still further down is the potter's field. In another part of the grounds are the sections for the colored J. C. C. and Panama R. R. employees. There is also a Chinese section and a Catholic section. The picture shows the graves of the employees protected by a low picket fence.

I have not been able to learn why they put this around the graves; some say for protection and others for ornament. It certainly makes a picturesque scene, these oblong fences embedded amidst the luxuriant tropical foliage. In the J. C. C. section all of this foliage is kept cut down as is shown in the picture of the Ancon cemetery and each grave is marked with a board upon which is painted the person's name and home residence. These boards are nicely shown in the Ancon picture.

It is gratifying to note that the J. C. C. section is filling very slowly. During the past year there has not been more than ten or twelve graves added to the section and not one of them has been filled from the ranks of the nurses. One of the carpenters, a middle-aged man from New York, died yesterday after a hard attack of pneumonia. The procession, on its way to the church, where the burial service was read, reminded me of the military funerals to be seen almost daily at the Soldiers' Home in Milwaukee. The casket was draped with the stars and stripes and a long line of sad-faced men followed the hearse to the church. A death down here is doubly sad because we are so far from home and near friends. One feels burdened with the weight of sorrow which they know must come to the friends at home at having one near and dear to them buried in this faraway land. In reality there is no prettier spot anywhere than Monkey Hill, even though the name is suggestive of unpleasant scenes. Some one has given the cemetery the name of Mount Hope, which certainly sounds better than its other and commonly used name, but it never will be used as generally as will Monkey Hill.

New Version of An Old Adage

Do You Eat for Mere Stimulation or for Real Nutrition?

In matters of money there is an old adage that says: "It's not so much what you earn as what you save," and just so, in the question of food and health, it might be said as truly, "It's not so much what you eat as what real nourishment you get out of what you eat."

This is the secret of health, strength and vitality. No difference how much nutrition your food contains, if your system does not assimilate that nutrition—take it up and distribute it throughout your body—you gain nothing beyond a temporary stimulation by having eaten it.

Malta-Vita, best whole wheat extract, thoroughly steamed and cooked and every flake baked to a crisp, is rich in nutrition and is assimilated readily even by the weakest stomach. Every one of the health-giving, strength-building elements is taken up by the human economy to nourish and sustain life.

No wonder that Malta-Vita is called "the Perfect Food," and that physicians recommend it for the sick and the well, the weak and the strong.

And Malta-Vita is so good to eat—not at all like the tasteless variety of flaked foods. A perfect breakfast is impossible without it and it's just as good three times a day. Try a bowlful with cream or fruit. You never tasted anything so good.

Malta-Vita is always ready to eat. No cooking, no inconvenience. All grocers, 10 cents.

SOARING PRICES ON WISCONSIN TOBACCO

Trust Pays Big Amounts for Four Packings in New York—Needed Leaf to Work With.

That big profits will be reaped in Wisconsin tobacco this season is an ascertained fact, proven by the following from the United States Tobacco Journal, published in New York City. It has been notorious that the American Tobacco company, the trust, until recently remained out of the field, but now realizing the need of stock, are seeking all obtainable, even at what seems to be top-notch prices.

"A genuine sensation was caused in the market by the report that four packings houses in the Street have sold their contracts for the 1905 Wisconsin to the American Tobacco company at an advance of two and a half cents per pound. This means that on ten thousand cases a profit of \$35,000 would be realized without a cent of cash investment or the risk of a penny, a transaction which puts in shade even the now famous graduate participations by the life insurance companies. Moreover, those extraordinary investments are not made for speculative purposes but for actual use. And if we were to report all the stories afloat in the market, as for instance, the offers made by original packers to their customers for whom they still hold in storage the good sold them to resell them, part of their purchases at a most substantial profit, of the appeal made to friendship and old connections for the sale of goods at a reasonable price, and of the begging that is being done to part with some types at any price, people might think we were trying to entertain them with a tale of Muenchausen. But the facts are sterner than any imagination could picture. For the general cry is, where are we going to get the tobacco to do business with? Even at the prices asked some houses that look for the future are hesitating to part with the goods. How all this will end is another question. But the prospects are such that the immediate future does not vouchsafe a satisfactory answer. While this description applies chiefly to the domestic leaf market, it might also be extended to the Havana.

TWO INSTITUTES IN COUNTY THIS WINTER

One in Beloit on February 22nd and One in Milton Junction the 21st.

Both Beloit and Milton Junction are to have Farmers' Institutes during the coming winter. The institute will be held in Milton Junction on February 21st and in Beloit on the 22nd, the next day. Mr. Utter is to conduct both of these and they will doubtless be well attended by residents of the county in the immediate vicinity of the two places of meeting. By holding the two, one at Beloit and one at Milton Junction, the farmers of both the northern and southern sections of the county can be accommodated. Delbert Utter is designated in the winter's program as the conductor of the institutes. He is sent out by the university and will direct the thought of the farmers during the sessions along the lines that he believes will be most useful in this section of the state. If the farmers will communicate with the department of the university having this matter in charge and state what questions they would like to have considered Mr. Utter will come "loaded" on those particular subjects. It has been felt for some time that these instructive sessions should be kept up, and that much was to be gained from them in the way of consultation and conference. It is probable that they will become annual affairs.

SEASON OF FASTING COMMENCES LAST DAY OF SECOND MONTH

THE ALMANACS ARE COMING

Other Interesting Data Regarding the Coming Year—Feasts and Holidays.

Since the days of Benjamin Franklin's "Poor Richard's Almanac," published long before the Revolution, the almanacs have been yearly increasing in usefulness and beauty. Franklin's almanac was full of pithy sayings of the gentle "Poor Richard" and much quoted even to this day. Other publishers followed the lead of the noted printer and then came to include other features. Today the almanac is a fund of information. It tells of the stars for the different months, the time of the rising and the setting of the sun, the church feasts, the holidays, the action of the sun and the moon, and is a source of general information. It is safe to say that every home in the United States has an almanac of some description hanging in a convenient place for ready reference. This week the almanacs for the coming year have begun to make their appearance. They are even more progressive and beautiful than ever.

The Year 1906

According to the almanacs the year 1906 comprises the latter part of the 130th and the beginning of the 131st year of American independence, and corresponds to: the year 6619 of the Julian Period; the year 5666-5667 of the Jewish Era (the year 5667 begins at sunset on September 19); the year 2659 since the foundation of Rome, according to Varro; the year 2566 of the Japanese Era, and the 35th year of the period entitled "Meiji"; the year 1224 of the Mohammedan Era, or the era of the Hegira, begins on the 25th day of February, 1906. The first day of January, 1906, is the 24,117,212th day since the commencement of the Julian period.

Morning and Evening Stars

The planet Venus begins as morning star and continues as such until February 14, after which date she is evening star until November 20, and morning star until September 4, and year.

The planet Mars will be evening star until July 15, and then morning star the balance of the year.

The planet Jupiter is evening star till June 10, after which date he is morning star to December 28, and then evening star the balance of the year.

The planet Saturn begins as evening star and continues as such until February 24, after which date it is morning star until September 4, and then evening star to the end of the year.

Eclipses for 1906

In the year 1906 there will be five eclipses, three of the sun and two of the moon:

1. A total eclipse of the moon, February 8-9, visible here: the beginning visible generally in North and South America and the western parts of Africa and Europe; the ending visible generally in North America, western and central South America, the eastern portions of Asia and the extreme northeast of Asia.

2. Partial eclipse of the sun February 8-9; not visible here, but visible to the regions around the south pole.

3. A partial eclipse of the sun July 21; invisible here.

4. A total eclipse of the moon of United States, but the beginning August 4; not visible in eastern part visible in western portions of our country, just before sunrise.

5. A partial eclipse of the sun August 19; invisible here, but visible to Alaska, northern Greenland and a large area around the north pole.

Church Days for 1906

The season of lent will occur unusually early in the year 1906. It begins on February 28, and ends on April 15, too early for the ladies to do much with the Easter bonnet. Following are the dates of the church days for the year 1906:

Epiphany Jan. 6
Septuagesima Sunday Feb. 11
Sexagesima Sunday Feb. 18
Quinquagesima Sunday Feb. 25
Shrove Tuesday Feb. 27

TO BUILD EXTENSION ON BLODGETT COOPER SHOP

Building in Rear of "Jeffries Mill" Which Was Recently Remodeled To Be Enlarged.

An extension is to be built on the front of the Blodgett Milling company's cooper shop. This building stands in the rear of the Janesville Sash and Door company's plant on North River street and beside the Margill shoe factory ruins. It is a two-story frame structure, built originally for the Hanson Furniture company and occupied by them until the new factory in the second ward was erected. The structure was vacant for some years, but this fall, when the building on North Main street, formerly used as a cooper shop was leased by contractor James Gullen as a planing mill, it was repaired extensively and put in condition to be used by the Blodgett company. Concrete piers were built underneath, the floors leveled and considerable other

..COMING ATTRACTIONS..

Otis Skinner has had but few, if any other, roles in his entire career that have so delightfully fitted the full gracefulness of his own personality and called for so fascinating a charm of art. If all reports are true, as his present triumphant characterization of "His Grace de Grammont" in Clyde Fitch's picturesque and witty romantic comedy by that name. The play is full of the armours and intrigues of the merry court of Charles the Second, which furnishes a series of elaborate stage pictures full of court splendor and richness of costume claimed to be the most beautiful production that Mr. Skinner has ever made. In the earliest scene De Grammont is seen as the airy court gallant, pursuing idle flirtations with the frail coquettes at the palace of Whitehall. He is the light-hearted fashionable beau of the gay Stuart reign. But when he gazes upon Elizabeth Hamilton, "the beautiful Hamilton," his heart is lost and he becomes the genuinely fervent wooer whose love-romance enmeshes all the succeeding scenes of this brisk and spirited play. There is a love scene in the garden that is declared to be the most exquisite ever enacted by even this expert stage lover. But

while cupid hovers over all, the efforts of the profligate King Charles to win De Grammont's sweetheart in a base amour give rise to romantic situations galore. Intrigue crosses swords with intrigue, and De Grammont shows his heroic valor in what is said to be stirring scenes of defiance of the dissolute monarch. The whole court, with its scheming cavaliers and frail beauties, is depicted in piquant character comedy, with characteristic Fitch epigram and repartee. Lady Castlemaine seeks to outwit the King, while two jealous coquettes indulge in a quarrel of the flirts that has proved quite a sensational novelty of stage realism. Arthur Forrest, who was such an elegant Petronius in "Quo Vadis" and such a masterly Mark Anthony in a notable Shakespearean revival, may be expected to prove a highly polished and royal figure as Charles. Laura Hope Crews, Mr. Skinner's new leading lady who will be Miss Hamilton, scored charmingly, last season, in another Clyde Fitch comedy, "Frederick Le-maitre." The cast of well-known artists comprises, among others, such expert players as Helen Ware, Marion Abbott, Jennie Eastace, Robert Peyton Carter and Charles Welles. Myers Grand, Monday, Dec. 11.

TOQUE IN SABLE WITH PARADISE PLUME

The vogue of the fur hat has made the possessors of fine sable skins hand them over to the tender mercies of the milliner, and delightfully fetching and becoming toques are fashioned from them. The styles that will cut into the valuable pelts least are those that are most in favor. A charming example is that pictured, in which a shape reminiscent of the torpedo turban, that had such a run, is followed. The hat skin is laid lengthwise along the crown, the sides filled in with soft brown velvet that reproduces to some extent the coloring of the fur. The pointed brim is similarly covered, and underneath there is soft brown chiffon against the hair. The long paradise plume is laid close to the hat at the left side, the coloring shading from brown at the quill through the burnt orange shades into a creamy white for the greater part of the length. A Napoleon rosette of fur, gold braid and quilted ribbon is posed at the left side with a very fetching effect.

WEATHER FORECAST

Fair with moderate temperature.

"The absent one has little chance of being the heir." But it's a better chance than has the "absentee" for securing his share of public patronage.

Sometimes Uncle Joe Cannon stands pat on one foot and sometimes on the other.

In the matter of the speakership Mr. Williams does not think he will ask for a recount.

As to Christmas shopping, a condition rather than a theory is beginning to present itself.

Having seized the Turk's islands, what is chiefly worrying the foreign powers is how to let go of them.

As a result of his long experience Abdul Hamid has learned to recognize a bluff when he sees one.

Maybe is was asking too much to expect that Tammany election officials would be able to count correctly.

Nicholas may be still the "little father," but his people are showing a decided willingness to become orphans.

Why did the president neglect to comment on the one great question of the day, the Christmas present question?

When you feel that you have discussed the message sufficiently it can do no harm to take an hour or so and read it.

College athletes who are watching the six-day bicycle race may not see why football should be singled out as brutal.

If the president wins in his bout with the railways he will feel strong enough to take on the Standard Oil company.

There would be more enthusiasm about the reopening of congress if it did not involve another dose of Reed Smoot evidence.

Pooria is the leading city in the production of whisky, but it is smart enough to allow other towns to lead in consuming its products.

Any one with a large amount of faith and a small amount of money can go into the market and load up quite heavily with Russian bonds.

Chauncey Depew says he will not talk any more. The insurance investigation has brought the public one substantial benefit, anyhow.

Somehow the country does not seem to see a very vivid picture of the senate in the act of voting to forbid campaign contributions by corporations.

McCall would not object to giving up the job, but it is indeed painful for him to sever his long and intimate association with the salary and pickings that go with it.

WHITEHEAD TO THE FORE.

Senator John M. Whitehead is fore and front in the battle against changing the present primary law until it has been tried. He is backed by McGillivray and Davidson and partially opposed by Leenroot. Whitehead, however, seems to hold the cards up his sleeve to win and is standing pat.

DAVIDSON'S COAL.

Lieutenant-Governor Jim Davidson has reason to believe that after January first the state of Wisconsin will pay for his coal. As the fall and early winter months have been mild he has been lucky. Meanwhile Bob will be laying in a stock of the black diamonds for the use of his family while he plays the statesman in Washington.

JUST A COINCIDENCE.

It is simply a coincidence, nothing more, that Robert M. La Follette will not leave the state as its governor until all his vast army of workers have been taken care of under the civil service law which goes into effect December 14. Of course there is nothing political in the move; it merely happened so.

OH MY IT HURTS!

The Beloit Daily News recently went up in a balloon over the editor-

ial in the Gazette calling attention to its claims for postmaster. It labeled its editorial "A Whine from Janesville," and then continued to lay down and grovel at the feet of the powers that be. Poor News! It is written on the wall it is doomed to defeat.

IT IS SILENT.

The Milwaukee Free Press does not say as much as it would like to regarding the governor's going to Washington. Why this silence? Does it fear that its angel will drop dead some day and a new chariot for conveying the coin to keep its corpse alive will not be forthcoming? Never mind, when Scofield gets that judgment there will be no need to look for an angel.

COOPER IS WORKING.

Congressman Cooper realizes that he must pay some attention to his political pay in his district if he wants to hold his place. With this in view he has ordered a bill presented for seventy-five thousand dollar appropriation for a new post-office at Beloit. It will take more than seventy-five thousand dollars for a post-office to hold the Line city in line for him if he turns down Chambersoll for any candidate whose sole credentials are the recommendations of a lot of irresponsibles.

THE GOLD BRICK GAME.

Your poor old Uncle Ike Stephenson of Marinette has been handed another gold brick. It would seem as though two or three times receiving the same old game would be enough, but the statesman from the northern neck of the woods does not seem to realize that he is an easy mark and a sure thing for "Junko men." The last gold brick proves to have been even of baser metal than any former, the old plug-hole showing where others had bored for gold and found brass. Still the merry game goes on. Still Uncle Ike hands out his money for campaign expenses in the hope of benefiting "Reformer Bob" and his "disciples."

THE ISLE OF PINES.

There is a suggestion of significance in the simultaneous appearance of two reports concerning the Isle of Pines. One is that the American residents of that island have issued a "declaration of independence" and have seceded from Cuba. The other is that a syndicate of "sporting men" proposes to make the island a "second Monte Carlo"—to wit, a winter pleasure, and especially gambling, resort. The public will await with some curiosity a revelation of the possible relationship between the two. Meanwhile, it may be worth while to consider briefly the attitude of this country toward the Isle of Pines.

The Treaty of Paris of 1898 provided that Spain should relinquish all claim of sovereignty over the title to Cuba, and should cede to the United States, Porto Rico and other islands then under Spanish sovereignty in the West Indies. As the Isle of Pines had for centuries been politically a part of Cuba, it was generally assumed that it was included with Cuba in the Spanish renunciation, and that the "other islands" ceded to the United States were Mona, Culebra and the others adjacent to Porto Rico. Some persons, however, seem to have acted on the theory, that the Isle of Pines was separated from Cuba and was ceded to the United States. The former view, however, prevailed at Washington. When American occupation of Cuba was ended the Isle of Pines was turned over to the Cuban government, just the same as Cuba itself. It was, it is true, provided in the Platt Amendment that the Isle of Pines should be omitted from the constitutional boundaries of Cuba, and the title thereto be left to future adjustment by treaty. It seems probable that our government then had in view acquisition of the island for use as a coaling and naval station. But it presently secured two such stations in Cuba itself, at Guantanamo and Bahia Honda. Then, finally, in July, 1903, the treaty called for by the Platt Amendment was made by the United States and Cuba, specifically confirming Cuba's title to the island. That treaty was signed, and was ratified by the Cuban Senate, but has not yet been ratified by the United States Senate.

Such is the story of the Isle of Pines. There are some American settlers, some of them with considerable interests on that island. The census of 1899, we believe, showed the presence of "2,990 Cubans, 195 Spaniards and 14 others"—the "others" comprising the Americans. Since then other Americans have gone thither, but it does not seem credible that they are sufficiently numerous to entitle them to speak in the name of the people of the island; while if, as it is said, they went thither under the supposition that the island was and would remain the property of the United States, they have themselves united to blame for their mistake. We can perceive no ground whatever that the United States government has given for such a notion. It is to be assumed, therefore, that unless there is far stronger justification for the reported action of the Americans on the Isle of Pines the present incident will receive no official countenance and will in no degree cause the United States government to swerve from the policy it has adopted.

PRESS COMMENT.

Either Fish or Cut Bait!
Madison Democrat: Shop now or forever hold your peace about the Christmas rush.

Should Settle All Doubts.
El Paso Herald: Jack London

doesn't want to play unmarried two consecutive minutes.

They're Always Talking.

Exchange: Unkind critics say that more Jews are killed in London newspaper offices than in all Russia.

Can This Mean What Bob?

Oshkosh Northwestern: Little people are foolish enough to "wear out their welcome" they always find it is a difficult quantity to replace.

Hard Games to Stagger.

Chicago Tribune: It will be a hard task, even for the president, to reform both football and the life insurance game.

Lust for Battle Unsatiated.

Exchange: Now that the governor has vanquished about all of his old enemies he is apparently preparing to fight some of his own recalcitrant followers.

New Departure in Herald.

Chicago Record-Herald: A dancer in one of the musical comedies has had her feet heavily insured. What's the matter with her? But she probably has reasons for believing they are all right.

This is Too Surprising.

Exchange: Most of the football heroes are making arrangements to stay in college right through the winter. Not a few of them will, in fact, take up regular courses of study.

Till the Summer Winds Blow.

Milwaukee News: It begins to look as if Mr. Davidson will have no chance to show what he can do unless he waits until the Chautauque season opens and calls a special session of his own.

Small Hope for Isaac.

La Crosse Leader-Press: If Isaac Stephenson had remained a stalwart he might sometime have gone to the senate. It is impossible that a Wisconsin legislator of today could be induced to elect him to that office.

"One of Those Western States."

Evening Wisconsin: And such is fame! The New York Tribune, in an appreciative notice of "Peck's Bad Boy Abroad," attributes the authorship of the volume to "The Hon. George W. Peck, ex-governor of Illinois."

Safe, With Restrictions.

Madison Journal: Restriction of "Jim" Hill as president of the Great Northern and a son-in-law as superintendent, it ought to be safe to ride on the trains in the day time in the last car at a low rate of speed.

Can This Be Verified?

Sleboyan Journal: It took 410,000 turkeys to supply the Thanksgiving demand of New York city. Of these J. D. Rockefeller ate 314,000, the McCurdy family 40,000, and John A. McCurdy 20,000. The balance went to the rest of the inhabitants.

Has Paid Well as it Was.

Shavano Advocate: As Governor La Follette could go into the mercantile business and be mentioned as often as he has been the past year, he would get rich in a year. He has been praised and cursed the past few months more than any half-dozen men in the state.

Norse Have Restricted Him.

Exchange: Norway's new king is so tied up with restrictions by the careful Norse, anxious to be in the European fashion but not too trusting of strangers, that he can't even change his laundress without legislative sanction. King Haakon is expected to be perfectly tame and docile and not to meddle with politics nor concerning him.

As Viewed Down in Texas.

El Paso Herald: La Follette can't quite make up his pugnaious little mind whether to be governor of Wisconsin or senator of the United States; but he can't keep both. Inducements are nearly equal. As governor, he can continue playing torero to the railroads amid an applauding audience of personal friends, acquaintances and constituents; as senator, he can have the felicity of denoting the difference between Spooner and the other Wisconsin senator, Spooner, before a national audience. Perhaps he is the only person in the world who craves a fracas with Spooner, who is without exception the most venomous tongued man in the senate; but La Follette does. The scrap should be worth seeing if he does go to the senate.

He, Also Might Be Menace.

Chicago Inter Ocean: Thomas W. Lawson seems to be meeting with considerable success in his campaign against the management of the Mutual Life and the New York Life insurance companies. Allowing a very liberal discount on Mr. Lawson's claims, it is still evident that he and those he represents will be factors in the next annual meetings of these companies. Now that Mr. McCurdy has been forced from the presidency of the Mutual Life, and that a considerable part of its directorate seems to be resolved on a thorough reformation, it is probable that the chief fury of the storm of indignation which Mr. Lawson is riding will be directed against the New York Life. However, many people would extremely dislike to see Mr. Lawson become too powerful with respect to any fiduciary institution. The plain prospect, that, unless something be done, Mr. Lawson may actually come to be a power in the New York Life, with its hundreds of millions of assets, is doubtless what has stirred some of its policy-holders to try to put John A. McCurdy out of its management before Mr. Lawson and his followers get a chance at him.

Didn't Want to Brown.

An Englishman and an Irishman were condemned for piracy. For that crime they are generally executed near some river. But by some accident the rope slipped and he fell into the water. The Irishman begged that the rope be tied fast to him, "for," he said, "if it should slip I would surely drown, for I can not swim."

A good thing—a president.

ELLEN H. FINNERAN SECURES A DIVORCE

From Husband and \$1,100 as Her Share in Partition of Estate Near Evansville.

Judge Dunnwiddle today signed a decree of divorce for Ellen H. Finneran in her action against Michael M. Finneran. The parties have resided in the town of Magnolia about four miles from Evansville. Testimony was taken in the case last summer, the wife alleging cruel and inhuman treatment. Some of Finneran's children accused him of pouring kerosene on and setting fire to buildings on the premises, but their stories were contradicted in several respects. By the decree the wife gets \$1,100 in the partition of the estate and the custody of all but one of the several children. The boy, Joe, will remain with the father. The former wife's share in the property is to be paid over five years after she leaves the farm.

GOOD TEMPLARS MET IN ANNUAL SESSION

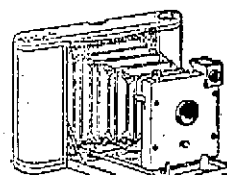

In the City of Beloit Yesterday—Several Janesville People Were Elected to Office.

At the annual meeting of the Independent Order of Good Templars, held in Beloit this week, M. S. Kellogg of Janesville was elected District Commander, J. A. Canine, D. M.; Mrs. Hatlie Humphrey, D. P. M.; C. E. Snyder, District Sentinel; and Charles Ward, P. D. C. T. The district comprises Green and Rock counties and the total membership of the order in the area is 209. There are two temples and seven lodges. A dinner was served at the hall yesterday and plans for a picnic next summer were taken up. A petition, praying the congress of the United States to enact legislation preventing evasion of the anti-cigarette laws passed by the legislature of Wisconsin, was adopted.

Flays Free Use of Water.

Dr. K. Beerwald of Berlin is opposed to the free drinking of water, so often advised. He says: "Excessive water drinking not only produces temporary disturbance, it also creates direct organic disorders; the heart and kidneys are particularly affected by the excess, and in these cases the vascular system is overcharged and the heart and kidneys overworked."

Senator Proctor to Resign.

Washington, Dec. 7.—An intimation by Senator Proctor of Vermont that he might retire from the senate March 3, 1909, two years in advance of the expiration of his term, caused the report that he would resign in a short time. Senator Proctor has made no definite statement.

Marine Subsidies.

Washington, Dec. 7.—The supplemental report and revised bill of the merchant marine commission were presented in the senate by Chairman Gallinger of the commission and in the house by representative Grosvenor. The revised bill, according to the commission, will produce an increased

revenue from the new tonnage taxes of \$1,900,000 in the first year of the operation. It is estimated that the actual expenditures in this time will be \$1,283,250.

Reciprocity Bill.

Washington, Dec. 7.—Senator Lodge introduced an amendment to the Dingley tariff law providing for maximum and minimum rates of duty so as to give preference to the products of those countries which do not discriminate against products of the United States. It provides for the levying of excess duties against countries which do not admit the goods of the United States on terms equal to those granted to other countries.

TOOTH TALKS

"Why will people persist in telling others how greatly they will be punished by the dentist," said a patient to Dr. Richards recently.

"You have SCARCELY HURT ME in the least, either in extracting my 14 teeth or in taking the impressions for my new plates.

"It's not one quarter as bad as they wanted me to believe."

This is a common expression. Most everybody thinks if they do not say it:

"What a fool I have been to put this off these years, to the great detriment of my health, just because I dreaded the ordeal."

Dr. Richards does his work rapidly. He has extracted 26 teeth in two minutes by the clock, and the patient swears by him, not at him, for, she declares, that she felt NO PAIN WHATEVER.

You can get—
Same service.
Same results.
Perfect satisfaction.

If you select Dr. Richards to do your dental work.

DECKER VINDICATED
BY JURY YESTERDAY

Verdict for the Defendant in Action Brought by Sherman & Scott to Recover Commission.

In circuit court the jury trying the action of Sherman & Scott vs. George Decker, brought to recover \$450 alleged to be due them on their claim of having secured a customer for the old Shields farm of which Mr. Decker was administrator, returned a verdict reversing the decision of the municipal court, and finding for the defendant. The latter's attorneys hinged their case on a legal point in the trial in the lower court and when this was decided adversely to them declined to enter any testimony, preferring to let the case go against them there, as it seemed certain to be taken to the circuit court, whatever the outcome. It was shown in the trial which ended yesterday that the plaintiffs did not have authority to dispose of the real estate in question. Mr. Decker testified that the price of \$12,000 which he fixed was conditional on the acceptance of the same by a third interested party and that when he wrote to this party—his sister-in-law, Mrs. Witt of Evanston—he refused to do so. Disregarding the fulfillment of the condition imposed, the plaintiffs, it would appear, went ahead exactly as if it had been complied with and unpleasant complications and the lawsuit resulted. The legal point brought up in municipal court was as to whether the action could be brought against Mr. Decker as administrator and agent of the estate, the defense claiming that it must be brought against the actual owners.

Leedle Divorce Action is Being Tried Today—Jury Excused Until Monday Afternoon.

The jury trying the action of William Schmaley vs. Herman Butke, brought by the plaintiff to secure damages for a horse injured in his neighbor's field, returned a verdict for the defendant. The divorce action of Harley W. Leedle vs. Bessie J. Leedle, brought on the grounds of desertion, is before the court today. Cooktown is the present home of the plaintiff, though he formerly resided in Racine county. Judge Dunwiddie has excused all the jury members until 2 p. m. Monday.

CROP OF BEETS

Fifteen Thousand Tons Are Awaiting Shipment to Janesville Factory—Some Interesting Notes.

Some fifteen thousand tons of sugar beets are piled up in the outlying territory, awaiting shipment to the local sugar factory. There are 1,500 tons in one stack at the country station north of the city and another immense pile at the Edgerton shipping station.

It is estimated that about 600 acres of sugar beets were raised adjacent to Edgerton during the past season and the farmers are of the main well satisfied with the yield. Of this acreage 350 acres were contracted for by the Janesville factory and 250 acres by the Menomonie Falls factory. It is reported that the beets at Edgerton showed an average yield of 18 tons per acre. Some fields have yielded as high as 26 tons, while 20 to 22 tons have been uncommon.

The Winnebago county schoolboys who raised sugar beets the past season for the Janesville company received \$566.77 for their season's work. The beets tested well in sugar content also. As reported to County Superintendent Kern the sugar contents of the beets were as follows: 14.1, 13.5, 14.7, 14.3, 14.3, 14.3 and 14.5 per cent.

Interest in the commercial culture of beets is increasing. The culture club of Lancaster at a recent meeting decided to rent a few acres of land for the purpose of experimenting with the cultivation of sugar beets the coming season. If these experiments prove successful, efforts will be made to secure a beet sugar factory for that town.

The local factory is now in full operation with a force of 300 and, it is expected, will be kept busy far into the month of February.

John H. Myers has purchased the Cornelius McDonald restaurant property, which was sold at sheriff's auction yesterday to satisfy a claim held by Charles Schaller and bid in by the latter for \$250 plus the \$200 for property exempted. The restaurant was opened on South Main street recently at a cost of \$1,200.

LOCAL NEWS OF THE DAY.

Removed to His Home: Frank Klaska, who lost one foot under a St. Paul passenger train on November 22, is recovering from his injury rapidly. He was removed from the Palmer Hospital to his home on Gold street by the Russell ambulance yesterday.

Will Not Lose Toes: It is now certain that Frank Ross, who fell under a North-Western freight train Monday evening and suffered a severe injury to his foot, will not lose any portion of the member. He is getting along as nicely as possible and will be able to return to his home in Fond du Lac to recuperate shortly. He is still at the Palmer hospital.

Harold Childs III: Harold W. Childs, one of the most prominent leaf tobacco dealers in the southern section of the state and extensively interested in Janesville, is seriously ill with typhoid pneumonia at his home in Edgerton. His condition is regarded as very grave and relatives and business associates who reside in New York state have been summoned to his bedside.

Orrie Weaver Gaining: Orrie Weaver, who has been very seriously ill with pneumonia at the home of his father, F. M. Weaver, 3 Monroe street, is recovering. He felt erasationally well yesterday and the attending physician pronounced his condition today as somewhat improved.

Clerk at the Grand: W. N. Boehme, who has been behind the desk at the Kirby House, Milwaukee, is expected in Janesville today to assume the duties of day clerk at the Grand hotel. Mr. Boehme was connected with the Capitol House at Madison for fifteen years and is well and favorably known by the traveling public.

Churches Active: Suppers and Christmas sales at both the Presbyterian and Baptist churches last evening were well attended, and the patrons were in a generous mood.

First Party of Series: The O. A. O. cinch club gave the first of a series of parties at the home of Mrs. J. Brunk, 403 South High street, last evening. The first prize was secured off by Mrs. N. Selgren, and the consolation was awarded Mrs. W. Lynch. The affair proved most enjoyable for all participating.

Miss Bostwick Entertaining: Miss Harriet Bostwick is entertaining a company of young ladies this afternoon in honor of her guest, Miss Jane Walker of Rockford.

Rents Rockford: H. H. Hile of Evansville has leased the Hilton House at Beloit. He will open in about ten days.

Paid Their Fines: James Farnbrook paid \$1 and costs and William Johnson \$5 and costs in municipal court this morning for an over-indulgence of liquids last evening.

YOUR STREET WHEN
WRITING TO SANTA

Also the Two Cent Stamp on the Envelope, and the Good Deeds You Have Done This Year.

Last Tuesday, as most of the children in Janesville and Rock county are aware by this time, the Gazette was very much surprised to receive a letter from Santa Claus asking that letters giving certain information be sent by his little friends to this office before Saturday, December 16—these messages to be published in the paper not later than Tuesday, Dec. 19. It will be remembered that the editor was very much surprised to get this letter. So much so that he forgot all about the awful news from Skinner's Eddy about old man Grumms driving his poor dog, Prince, out to freeze that cold night. So many of those who have already written have asked about Prince that we must say right here that he did not die, though he was unconscious the next morning and his tail was frozen to the street-car track. But about those letters—quite a number came in yesterday and some more today. Nearly all were from Janesville, but there was one from Stoughton, and one from Orfordville. Santa Claus forgot to ask it, but it will help him wonderfully if the little writers tell what street they live on and, if possible, the number. The two-cent stamp on the envelope should not be forgotten. Then, too, just to be on the safe side, mind you—it will be well to tell Santa about any good deed you have done this year—such as letting little sister play with the doll you wanted, or being kind to YOUR dog Prince or Rover or Spot—whatever his name may be. We are sure this will help.

BASKETBALL LEAGUE
OF INTERMEDIATES

Four Teams at Y. M. C. A. Will Play Schedule of Games During the Winter.

Four basketball teams have been formed from the ranks of the intermediate members of the Y. M. C. A. and a schedule of games will be played during the winter. The season will open with two contests next Wednesday evening and the five will be so matched in the following weeks that a championship will be awarded. The teams are as follows:

Cherokees—Langdon (captain), Kilmer, Koch, Jones, Jeffris, Kendall.
Blackhawks—Poenichen (captain), Cassidy, Jensen, Davis, Bough, Strang.
Seminoles—Bennison (captain), Dreyer, L. Baker, Quinn, Hans, Klinka.
Iroquois—B. Baker (captain), Merrill, R. Church, Parker, Booth, C. Wright.

The Cherokees and Blackhawks will play at seven o'clock next Wednesday evening, and the Seminoles and Iroquois at quarter-past the same hour.

MRS. MARY DOLAN MARRIED
TO JOHN MORRIS OF MADISON

Ceremony Performed at St. Patrick's Church Parsonage by Rev. J. J. McGinnity.

In the presence of only the witnesses, Mrs. Mary Dolan of 161 Cherry street was united in marriage to John Morris of Madison at the St. Patrick's church parsonage Monday evening. The ceremony was performed by Rev. James J. McGinnity. Mrs. Morris will move to Madison shortly and take up a home there. The bride is well known and many friends here extend congratulations.

GRAND ARMY POST WILL BE
IN CHARGE OF FUNERAL OF
LATE JESSE C. WINSLOW

Services From the Home Tomorrow Afternoon—Deceased Served in New Hampshire Regiment.

Funeral services over the remains of the late Jesse C. Winslow will be held from the home, 8 Monroe street, tomorrow afternoon at two o'clock. Rev. Laughlin of the Presbyterian church will officiate and the Grand Army Post will have charge of the ceremonies. Mr. Winslow, whose death occurred yesterday after a three months' illness with paralysis, was an old and respected resident of Janesville. He was born in Lyme, New Hampshire, June 21, 1829, and was married to Sylvia Palmer in Burke, Vermont, March 10, 1850. Mr. and Mrs. Winslow came to Janesville in 1884 and have since made this their home. The deceased served in the Fifth New Hampshire regiment for two years of the Civil war. He leaves to mourn his loss a beloved wife and a large circle of friends.

State Civil Service Commission Examination.

The State Civil Service Commission is now ready to receive applications from persons desiring positions as unskilled laborers. There are between 350 and 400 permanent positions in the labor class in the state at large. Persons residing in the vicinity of state institutions may make application in person of such institution instead of writing to the Civil Service Commission.

The labor class includes all unskilled laborers such as farm hands, gardeners, barn men, teamsters, house servants, as well as assistants to laundresses, seamstresses, butchers, painters, tailors, shoemakers, cooks, etc. An applicant for a position in the labor class will not be required to undergo a scholastic examination. Acceptance or rejection or such applicant will depend upon the reports of his former employers, and his own statement made under oath in his application paper.

THE WEATHER.

Temperature last 24 hours taken from registered thermometer at Heimstreet's drugstore: highest, 51; lowest, 32; at 7 a. m. 32; at 3 p. m. 31; wind, southwest; beautiful day.

BEGGARS' BALL WAS
DELIGHTFUL AFFAIR

Unique Entertainment Given by Mrs. Arthur Valentine and Miss Anna Valentine at Parish Hall Last Evening.

Organ-grinders, meddants with wheezy accordions, gypsy fortune-tellers, farm-hands, hobnob ladies in the quaint costume of colonial days, milkmaids in gingham, a lone king's jester in a red garment built like a pagoda, hung with bells, and surmounted by an elaborate Elizabethan ruff, maidens in tight bodices and flounced and flaring skirts who appeared to have stepped out of some of those old deguerotypes of the period before the Civil war, and many other grotesque figures who cannot be classified, made up the "motley throng" that responded to the invitations of Mrs. Arthur E. Valentine and Miss Anna Valentine to a "Beggars' Masquerade" given at Christ church parish hall last evening. Roy Carter was at the piano and the festivities which began shortly after eight o'clock were not concluded until one this morning. As a take-off on some of the recent "swell affairs" at Central hall each guest upon entering was provided with a colored ribbon, and a tin lantern with a strip of red or green fannel around its chimney was hung up on a hook at intervals to "tag" those who were expected at the refreshment stand below. Salad, coffee, and sandwiches, ice-cream, and cake were served at a long table in the dining-room on the first floor. Multi-colored but indescribable confections in the bonnet line, worn by Miss Harriet Bostwick and Miss Jane Walker of Rockford, challenged the admiration of all the dancers. Hugh Craig made a realistic organ-grinder and Stanley Woodruff convincingly sustained the dual role of "the monk" and the jester. Leo Brownell was such a good "Maud Muller" that several gentlemen tramped asked him to dance. David Holmes was a screaming success in his delineation of "One of the White-lights." The whole affair was one of the most enjoyable given in many weeks.

CREATES FUND FOR FIRE LOSS

City of La Crosse, Wis., Drops Old Insurance Plan.

La Crosse, Wis., Dec. 7.—This city has adopted a new plan of carrying its own fire insurance on public buildings. Policies of a face value of \$10,000 have expired and \$15,000 worth of insurance will expire in January, but the policies will not be renewed. A sinking fund of \$15,000 has been created and will be increased annually until the city is able to pay for any probable fire losses out of this fund.

TOBACCO SECRETS.
What Makes the Chico One of the
Mildest and Most Enjoyable
Cigars on the Market.

How many people, even among the most confirmed smokers, know what constitutes the difference between a strong and a mild cigar? It is simple enough. The strong product is so made that it burns badly, while a mild cigar is one that burns well—like the Wadsworth Boys' Chicos.

"These cigars," says The Smith Drug Co., the local agents, are made from a Havana filler, carefully selected, with the best hand workmanship, and as they burn freely with a firm, perfect ash and the result is a mild, pleasant and enjoyable smoke."

Six months ago the Chico was not known in Janesville, but today it is the most popular cigar in the city, and is the favorite, although it sells for but five cents. Smokers who have heretofore wanted only ten to fifteen cent goods should step into Smith's Drug Co. and get a few Chicos. We know you will say, as do other fastidious smokers, that it is the mildest and most enjoyable cigar in the market.

CANAL MEASURE BEING RUSHED

House Will Take Action on
Appropriation at To-day's
Session.

OPPOSITION TO BOND SCHEME

Minority Leader Declares Congress
Should Not Permit Issue of Securities
When National Banks Hold Mil-
lions of Federal Money.

Washington, Dec. 7.—The House of Representatives, sitting as a committee of the whole, exhausted its oratory on the Panama Canal emergency appropriation bill yesterday, and the measure, which carries an appropriation of \$16,500,000, will be read for amendment and placed on its final passage to-day.

This does not mean that all is clear sailing for the bill, however. John Sharp Williams, leader of the minority, gave notice that he would attempt to make material changes in it. Prefacing his remarks with the statement that the canal is a non-partisan matter, he said the principal amendment he should offer would be to strike out the sum of \$16,500,000 and insert an amount he should endeavor to ascertain as actually necessary to carry out the work until Jan. 1 next.

Opposes Bond Plan.

Asserting that there is at least \$40,000,000 belonging to the United States now on deposit without interest in national banks, Mr. Williams said he should object to the issuance of bonds on which 2 per cent interest would be paid to secure money to build the canal. Failing in striking out the entire bonding provision, he should move to strike out the provision reimbursing the treasury the amount appropriated in the bill from the proceeds of the bond sale. He called attention to the original act authorizing bonds for the canal and said it was plain there was nothing mandatory about it. He maintained that the position he took was not a movement against national banks.

At the suggestion of Mr. Fitzgerald of New York, Mr. Williams said he should also offer an amendment requiring itemized statements of the expenditures from the canal commission.

Says "Press Agent" Is Paid.

Another matter which came up to perplex the supporters of the bill was the implication made during the debate that the canal commission pays a salary of \$10,000 a year for a "press agent." This drew down the criticism of several speakers, but definite charges were not forthcoming, and the matter was laid aside for the time being in a shape that appeared very hazy to those who did not know what the congressmen were driving at.

The "press agent" discussion was brought up by Mr. Fitzgerald, who said "he had been informed that \$10,000 a year was being paid to a press agent in this city." Mr. Hepburn, in charge of the bill, said he knew nothing of such an employee.

Mr. Mann later said that there were two employees of the canal commission who receive salaries of \$10,000 a year. One is Mr. Ross, the purchasing agent, and the other Mr. Bishop, secretary to the commission.

Want Detailed Statements.

Another feature of the debate was the criticism indulged in by both republicans and democrats regarding the incompleteness of the statement of expenditures and estimates furnished by the canal commission. Mr. Hepburn made some effort to show that, while detailed estimates might be more satisfactory, at the same time members of the house were not in a position to pass critical judgment on estimates for such work prepared by expert engineers who held responsible positions and had been selected entirely because of their fitness.

Lemuel Milk, a Michigan City, Ind., lineaman, fell from a telegraph pole onto a spade handle which penetrated his stomach, causing fatal injuries.

You Must Sleep.

If you cannot, it is due to an irritated or congested state of the brain, which will soon develop into nervous prostration.

Nature demands sleep, and it is as important as food; it is a part of her building and sustaining process. This period of unconsciousness relaxes the mental and physical strain, and allows nature to restore exhausted vitality.

Dr. Miles' Nerve brings refreshing sleep, because it soothes the irritation and removes the congestion.

It is also a nerve builder; it nourishes and strengthens every nerve in your body, and creates energy in all the organs.

Nothing will give strength and vitality as surely and quickly as Dr. Miles' Nerve.

"During the past winter I had two attacks of La Grippe which left me very weak, and in bad condition. My wife, after trying different remedies, went for a doctor. The doctor was out, and a neighbor recommended Dr. Miles' Nerve, and she brought home a bottle. I had not slept for some time, and had terrible pains in my head. After taking a few doses of Nerve, my pain was not so severe, and I slept. I am now taking the second bottle, and am very much improved."

DR. J. C. MILES' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

A NEW TRAIN TO LOS ANGELES

The North-Western Line and The Union Pacific Put on a Sixty-Eight-Hour Train via Salt Lake Beginning December 17.

Beginning Sunday, December 17th, a solid through train from Chicago to Los Angeles will be placed in service over the Chicago, Union Pacific & North-Western line, in the newly opened Salt Lake Route (S. P., L. A. & S. L. & R.).

The train will be electric lighted throughout. The schedule time of the new train will be sixty-eight hours, leaving the Wells Street station, Chicago, every day in the year at 6:00 p. m., and arriving at Los Angeles at 12:45 noon the third day.

The equipment is new from the Pullman shops. The electric lighting of the cars includes berth reading lamps of the most modern design, conveniently placed in each drawing room and section in the sleeping cars. The composite observation car and dining car is brilliantly lighted, with both center and side lamps.

The equipment includes one fourteen section Pullman standard sleeping car, one twelve section and drawing room Pullman standard sleeping car, one Pullman tourist sleeping car, and a composite observation car, with buffet smoking-room and booklovers' library through to Los Angeles without change.

All meals in dining car; a la carte service. The architecture and interior finish of each car presents an unusual richness of effect. The interior decorations are in green and gold, the upholstery is in olive green plush; the woodwork in vermilion mahogany.

The dining cars are of the latest design and their equipment is most complete. The best of chefs, skilled stewards, experienced waiters, and a menu of the highest character, combine to cater satisfactorily to the most exacting taste.

Every provision has been made for the greatest degree of comfort and convenience for all classes of travel. The route of the new train is over the only double track railway between Chicago and the Missouri River, through Council Bluffs, Omaha and Cayenne to Ogden and Salt Lake City, and directly across Southwestern Utah and Southern Nevada, into the citrus fruit region of California, passing through San Bernardino, Riverside and Pomona to Los Angeles. This is a new and desirable routing, and secures to the traveler the advantages of the best that can be produced in railway travel over the pioneer line from Chicago and the enjoyment of new scenes and excellent train service over the new Salt Lake Road.

Many travelers to Southern California will doubtless avail themselves of this routing one way, returning through the San Joaquin Valley or up the Coast Line of the Southern Pacific to San Francisco, and thence east on the Overland Limited. Round trip tourist tickets provide for this variable routing, and also for stopovers at Salt Lake City and at various California points without any extra charge.

The sleeping car diagrams for the new train are now open to the public for reservation for space.

The site offered by J. F. Easton for the La Crosse normal school has not proved acceptable to the state board of regents.

DECLARE ILLINOIS IS BANNER WHISKY STATE

Ten Licensed Distilleries Turn Out
More Spirits Than the 223 Op-
erated in Kentucky.

Washington, Dec. 7.—Curious facts come to light in the government figures as to the production of distilled spirits. Kentucky operated 223 licensed distilleries and Illinois ten, yet the latter state made many thousands more gallons of whisky than Kentucky. Most of the Kentucky concerns have a spirit capacity of less than thirty gallons each day, and a grain capacity of not exceeding five bushels each day, while the majority of the giant concerns of Illinois use 500 bushels of grain daily. Virginia had 111 distilleries, but they were all of the small order. Those in North Carolina are the same kind.

Here are some other interesting facts: The moonshine whisky turned out in the mountains of the South is a mere drop in the bucket compared with that made under government supervision. One Illinois distillery makes more whisky in a week than all the moonshine places in the South put together in a whole year.

Corn whisky is so seldom seen in the North that the general impression is that its manufacture is confined to Southern distilleries. More corn is made into spirits in Illinois than in any two other states combined.

TELEGRAPH COMPANY MUST PAY

Minnesota Wins in Suit Against Western Union.

St. Paul, Minn., Dec. 7.—Judgment has been filed in the district court in favor of the state of Minnesota and against the Western Union Telegraph Company for \$19,360. The judgment is the final action in the settlement of the celebrated Western Union tax case, which was decided by the supreme court Sept. 25. Judgment was ordered on motion of the state's attorneys, E. T. Young and Charles W. Somerby. The supreme court some months ago decided that the Western Union could be taxed upon the value of its franchise and intangible property. The decision is regarded as one of the most important tax decisions ever filed in Minnesota.

GIRL IS BEATEN AND CHAINED

Sensational Evidence Given by Inmate of Industrial Home.

Indianapolis, Ind., Dec. 7.—Sensational testimony was given in the investigation of the conduct of Miss Emily Rhoades, superintendent of the industrial school for girls, who is charged with cruelty. Myrtle Butler, a former inmate, was the chief witness. She said: "In August I and another girl ran away. When Miss Rhoades found us she caught me by the hair, handcuffed me and brought me back. I was then shackled and chained. My hands were fastened behind my back. I was taken to 'Japan,' as the punishment cell was called. On the way she knocked me down, then she struck me in the back with her fist and I fell on my face. She kept me in a cell for three weeks. I was kept handcuffed and chained three days and nights."

COAL DUMPED INTO THE RIVER

Valuable Cargo Is Lost by Accident Under Cincinnati Bridge.

Cincinnati, O., Dec. 7.—Ten thousand tons of coal and ten coal barges, all of a value of not less than \$50,000, were lost in the Ohio river under the Chesapeake and Ohio railroad bridge Wednesday. It was by almost a miracle that no lives were lost. The steamer Coal City, one of the most powerful cowboats in the river trade, came down from Pittsburg with a string of twenty barges, each containing 1,000 tons of coal. Under the suspension bridge the swift current turned the tow end across the stream and it struck the south pier with a terrific crash. Ten barges up-ended and each dumped its 1,000 tons to the bottom.

Cotton Pest Is Spreading.

Austin, Tex., Dec. 7.—In a statistical report W. J. Clay, state commissioner of agriculture, says that during the last six years the cotton boll weevil has destroyed approximately 2,000,000 bales of cotton in Texas, valued at \$100,000,000. The pest has now spread to nearly every part of the Texas cotton-growing region.

Headquarters here for Holiday Gifts. Bigger stocks, bigger varieties and better than ever before.

J.M.B. & SONS.

Saturday, December 9th, We Will Have a Formal ..CHRISTMAS OPENING..

Our Great Stock will be displayed to the best advantage, affording one an opportunity to get many ideas even if not quite ready to buy. Kneff & Hatch's Orchestra will play in the evening from 7 to 9:30.

The Big Store has made unusual preparations for Holiday Selling. One need not wait for the opening necessarily, as gift selling is in full swing, in fact started earlier than in former years. The opening will be given to bring before the people in a most prominent manner this store's Wonderful Holiday Equipment. The Windows will not be the least attractive feature, in fact you may be surprised when you see them.
